Chan Lowe: Rosie O'Donnell and the shark

This was a local story, so it was hard to resist. You don't have to be a tree-hugging environmentalist to be repulsed by the photo of Rosie O'Donnell and her smiling children standing proudly beside the bloody carcass of a magnificent specimen of an endangered species. Killing a shark for sport isn't the best example to be setting for the kids.

Couldn't she just have taken them to the FPL power plant outlet pool to see the manatees?
